

generally spherical portion of generally the same radius of said spherical surface.

23. (Amended) The method of claim 19 including

*al*  
*com* establishing said aspheric central surface with a diameter of about 2.5 to 4 mm.

**REMARKS**

The above amendments have been made in order to more accurately define the claim structure. The Examiner's assumption regarding Claim 23 is correct.

Applicant hereby elects to pursue Claims 1 - 16 without traverse. An action on the merits of these claims is respectfully requested.

Respectfully submitted,

Arnold B. Silverman
